IN MEMORIAM.

W. G. McLaughlin.

Resolution by House of Representatives.

Since the adjournment of the regular session of 1913 the Honorable W. G. McLaughlin, a member of this body from Mecklenburg County, was suddenly called to his final reward. He was a member of this House for three successive terms.

He was a painstaking legislator, efficient and conscientious. He spoke not in public, but in his wisdom and his judgment in private counsel and in the committee room rendered great service to the State of North Carolina.

His face we shall see no more; his warm handshake we shall feel no more; his presence we shall never again have. He dropped off by the wayside while about the duties of life, and when the final summons came he was found battling in the path of duty, and the path of duty leads only to glory.

Be it therefore Resolved, by the House of Representatives of the State of North Carolina, in special session of 1913 assembled, That the State has lost, in the death of W. G. McLaughlin, a sane, wise and conservative legislator, a friend of all men, a lover of truth, honor and justice; that we, on this occasion with bowed heads in sorrow, mourn our loss; that while we are today struggling with the problems of State we hope and feel that he is basking in the sunlight of a happier home, a house not builded with hands, and the

capital of his new home filled with angels and presided over by the God who made him.

That the House this day adjourn in his memory.

That a copy of these resolutions be spread upon the minutes.

PLUMMER STEWART,

J. T. WALL,

PAUL R. CAPELLE,

Committee.

On motion of Mr. Long the House adjourns to meet tomorrow at 10:30 a. m.

To the House of Representatives.

The Special Commission on Freight Rates submits to the House the following, for its information.

JUSTICE, *for the Commission.*

GREENSBORO, N. C., September 20, 1913.

To His Excellency, Locke Craig, Governor,

Raleigh, N. C.

DEAR GOVERNOR: Replying to your request of the 19th, we beg to say that we have examined the proposition of the railroads submitted to you through the North Carolina Corporation Commission.

The suggested reduction of rates on inbound western business is substantial.

We should be constantly advertent to the fact, however, that the establishment of the State's policy that there shall be no greater charge for a short haul than for a long, the short haul being included in the long and both hauls being in the same direction, where the freight hauled is of the same kind and quantity, and absolutely essential to the ultimate adjustment of our troubles upon any systematic plan, or indeed upon any plan except one that is purely arbitrary, but while this is true, pending the establishment of this principle by the Interstate Commerce Commission or by Congress as a national policy, it may be wise to take from the railroads as a temporary adjustment on western business for the term of two years a reduction less than we are justly entitled to, if this can be secured without a surrender of principle.

The aggregate amount that would be saved to the State of North Carolina under the proposition submitted by the railroads, if put into effect, is so great that we feel it ought not to be hastily or inconsiderately rejected, and that certain features of the proposition which render it optional with the railroads to refuse to put even the proposed rates into effect after the General Assembly has adjourned, were removed, it would be our disposition to enter into a consideration of the proposition, with the sincere hope of putting the reduction proposed by the railroads into effect, pending the settlement of the principle with reference to long and short hauls which might result in greater reduction, or at least which might remove arbitrary discriminations and extortion.

A careful analysis of the details of the proposition which would result in accurate opinion as to whether or not the rates proposed are just to all points in North Carolina is difficult, for the reason that the railroad companies have delayed in making their proposition until the very eve of the special session of the Legislature, and there is great danger of the negotiations defeating the reforms in rates which the Legislature has power to make. Whatever is done with respect to the railroad companies' proposition must be done speedily, lest the consideration of it will necessarily divert the attention of the General Assembly from other important matters with reference to rates and stand in the way of working out such reforms.

It is stated in the proposition submitted by the railroads to the North Carolina Corporation Commission that it is "subject to the understanding between representatives of the State and representatives of the carriers in conference in Raleigh on February 26, 1913."

That proposal made by the railroads is to us perfectly clear, and to avoid any misunderstanding about its terms you dictated to this Commission a response to the proposal, stating that we understood it to mean, and the response in this response was reported to the General Assembly.

After the General Assembly had adjourned serious difference arose between us and the representatives of the carriers and the traffic managers of the roads and others who were present representing them, on April 19th, as to what this proposition meant. It was stated in the proposition, in substance, that substantial reduction would be made by the railroads on freight from the west, and that the carriers would withdraw from business to Virginia cities, and that the reduction in rates agreed upon would be submitted to the Interstate Commerce Commission with the request that these rates be approved. We were willing that this last step should be taken, because the act of Congress requires the rates to be submitted to the Interstate Commerce Commission for their approval in any event.

It was never contemplated, however, that the rates so agreed upon should be contingent upon a holding of the Interstate Commerce Commission, and that if Tennessee and South Carolina complain that they were entitled to reductions, that the North Carolina situation would not influence the Interstate Commerce Commission upon such applications. This we understand to be the contention of some of the representatives of the roads now. Of course the Interstate Commerce Commission is not going to prejudice any case that might be brought by Tennessee and South Carolina before such case arises, and if we were not to get any relief under the proposal of the railroads that unless and until the Interstate Commerce Commission agrees that the reduction of rates to North Carolina will not affect the rates in South Carolina and Tennessee, then the proposition of the railroads is utterly meaningless.

Inasmuch as the condition as above quoted from the proposition of the carriers caused serious misunderstanding because of the insistence by the railroads of their construction of it is shown, and inasmuch as the railroad companies have the power to refuse to put in the rates unless there is compliance with their construction of the proposition of February 26th, we think that this condition ought to be eliminated altogether.

The recent proposition of the carriers also contains this condition: Then

the State shall not in the "meantime adopt punitive or retaliatory measures against the carriers."

The experience of the members of this Commission who have been members of the General Assembly is that all measures which the carriers oppose are in their judgment unfair, retaliatory and punitive. If we were to accept this proposition with this condition then we would abrogate the State sovereignty to the railroads for a period of two years, and, having become accustomed to this subserviency and humiliation, it would probably be hard for the State to again regain its self-respect.

Of course if the State insisted that measures for the relief of the people were not retaliatory, and the carriers insist that they were, then the carriers could arbitrarily refuse to reduce the rates because they had determined that the measures were retaliatory. In such an event there would be no tribunal to which to refer the questions as to whether the measures were arbitrary and retaliatory, and therefore the railway companies could refuse to reduce rates at all, or, having reduced them, could arbitrarily restore them and give as the excuse that the State had broken faith.

The insistence of the carriers in North Carolina, upon having dealt out to them what they are pleased to call fair treatment, and the fact that the people of North Carolina were too busy to know about the merits of the controversy, has already given the carriers in North Carolina too great an influence with respect to the laws of this State, but we believe that the people of North Carolina are sufficiently informed now about this technical subject to be able to judge with satisfaction to themselves what is just, even though they can not bring the carriers to agree with them, and certainly this question ought not to be referred to the carriers as would be, in effect, done if we accept their proposition with the condition last quoted as a part of it.

If the State is sovereign in this matter and lets the special session of the Legislature pass without exercising its power to secure just treatment for the people of North Carolina, it would be very analogous to the position Samson was in after his locks were cut and he was blind.

We do not desire, however, by this answer to your letter to interpose unjustly or improperly any obstacles to an adjustment with the carriers of any interstate freight charges, and we are sure that if the carriers are sincerely desirous of giving to North Carolina fair treatment, that in that event they will not withhold proper reductions on interstate rates because the State refuses to surrender its power with respect to the matters over which it has jurisdiction.

We have asked Mr. J. C. Forrester, Secretary of the Greensboro Chamber of Commerce, and Mr. J. F. Ryan, Secretary of the Southern Furniture Manufacturers' Association, rate experts, to examine the proposition submitted by the carriers to the North Carolina Corporation Commission, and make such comments, and particularly with respect to technical phases of it, as in their opinion will be helpful to us and to you in an understanding of it. We hand you herewith their comments.

While it is not advisable to extend this report by pointing out that some points in North Carolina are out of harmony with the general plan of reduction on western freights proposed by the carriers, we wish to say that we

think this point should have attention, provided the carriers should see their way clear to submit their proposal in definite form and indicate a time when they will put the reduced rates into effect.

The suggestion of the carriers that the State accept certain reductions on eastern rates, provided the carriers, after negotiations with their communicating lines find themselves in a position to propose such reductions, does not appeal to us, as we think the contingency upon which the suggested reduction is based may or may not happen. If the carriers who have made this proposition find as much difficulty in inducing the trunk lines to reduce their rates to Virginia cities as the State has found in inducing these carriers making this proposal to reduce the proportional south of Virginia cities, we fear it will be a long time before the condition is met upon which the carriers will reduce eastern rates.

Independent of whether the northern roads connecting with the carriers making this proposition reduce their rates, we are thoroughly satisfied that the proportional south of Virginia cities is abnormally high, and that these carriers should reduce this proportional, which is absolutely under their control and with which connecting carriers have no concern.

As you know, every member of this Commission, as well as yourself, has, at all times since the adjournment of the regular session of the General Assembly, urged upon the carriers the importance of negotiations looking to a reduction of interstate rates.

This Commission's power to negotiate and its duty to report to the General Assembly its proceedings and any recommendation it might desire to make, and particularly its power to negotiate, was based upon the urgent request of these carriers, and it is a source of very great regret to us that any proposition substantially reducing rates has been delayed so long, and that it is connected with so many conditions and contingencies as to make it very difficult for us to give it that degree of attention that the magnitude of this matter requires.

We shall be very glad to contribute anything we can to a just adjustment of these matters, but, as has been so well said by you, peace is desirable, but peace without honor is intolerable.

No member of this Commission is disposed to be resentful toward the carriers, or to permit anything but the welfare of the State to control us in taking any action or making any recommendation.

If we should recommend the acceptance of the proposal, and after the General Assembly has adjourned it should be discovered that by reason of conditions that can never be met, the proposition of the carriers, which, like the fruits of the Dead Sea, looked well at a distance, should crumble to ashes at the touch, and no reduction at all should follow, the people of North Carolina would rightfully condemn us as being inefficient or unfaithful servants.

There is considerable ambiguity in the proposition as pointed out by Messrs. Forrester and Ryan in the accompanying paper, and this should be remedied and a time limit should be fixed for putting the proposed rates into effect, and all the conditions which may defeat entirely the carrying into effect of the proposal should be eliminated by the carriers from their proposition.

Of course the entire understanding between the carriers and those representing the State should be reduced to writing, so that nothing will be left to inference.

CONCLUSIONS.

Our conclusion, therefore, is that the conditions and ambiguities pointed out by us should be removed by the carriers, in writing, and that they should agree to put the proposed western rates into effect within sixty days; and when this is done the General Assembly could well afford to declare that it will be the policy of the State to allow these rates to remain as so fixed for a period of two years. The State should make clear that such an adjustment does not in any sense restrict the State in its power to act with respect to any other rates or any other matter, and that there is no express or implied obligation on the State to do or refrain from doing anything else it may deem wise and proper.

The benefits so received by the State will be inadequate but the aggregate amount of the reduction will be substantial and the condition that the State will not disturb these particular rates for two years is not so serious or objectionable as to justify the declination of the proposal.

September 20, 1913.

E. J. JUSTICE, *Chairman*;

W. B. COUNCILL,

N. B. BROUGHTON,

Special Commission.

GREENSBORO, September 20, 1913.

Hon. E. J. Justice, Chairman Legislature Commission,

Greensboro, N. C.

DEAR SIR: We submit herewith as complete analysis of the latest proposition of the railroads as the limited time at our disposal would permit:

CINCINNATI-LOUISVILLE.

First. On western traffic, reductions are proposed only on traffic from western points, from which rates are made by combination on Ohio and Mississippi River crossings. This would result in no reduction from a wide territory west of the Buffalo-Pittsburg territory which now base on Virginia cities.

To illustrate: The rates from Grand Rapids, Detroit, Akron, Cleveland and many other important points in Ohio, Illinois, Indiana, Michigan, Minnesota, etc., will be full sum of the local rates to and from Virginia cities.

Suggestion: That basing rates published from Virginia cities in Agent J. A. Ryan's I. C. C. No. 1 be reissued, establishing proportional rates on the basis used south of the Virginia gateways in constructing the rates proposed from Cincinnati and Louisville to North Carolina points, which would result in same reduction in cents per hundred pounds as proposed from Ohio and Mississippi River crossings on traffic originating in the States of Ohio, Kentucky, Tennessee, Arkansas, Louisiana and west thereof where specific through rates are not published and lower rates can not be made on Ohio and Mississippi River crossings.

The printed report of the Corporation Commission of August 5th, on pages 9 and 16, provided for rates to Fayetteville on the same basis as Zone 2, but not to increase the present rates. This would result in reductions as follows:

1	2	3	4	5	6	A	B	C	D	E	Potatoes
11	8	8	6	4	0	3	0	0	0	3	2

The memorandum of the railroads published in the same report makes no specific reference to Fayetteville.

The proposition of the railroads of September 12th specifically excludes reductions to Fayetteville.

Suggestions: The rates to Fayetteville ought not to exceed Zone 2 rates in any case.

Notwithstanding the fact that the proposition of the railroads does not entirely eliminate discrimination against North Carolina, we are of the opinion that the proposition, in so far as it relates to the rates from Cincinnati and Louisville and points basing thereon, the reductions offered to the State as a whole are substantial and based on the limited analysis we have had time to make, we are disposed, with the following exceptions, to recommend its acceptance.

Exceptions: Rates to be established without tying the hands of the State with respect to any other traffic, or requiring the State to become a party to any proceedings of any character before the Interstate Commerce Commission; and further, that appropriate consideration be given the claims of points not specifically provided for as being located in zones.

TERRITORY LYING IN AND EAST OF BUFFALO-PITTSBURG TERRITORY.

Second. No definite reductions are offered except on iron and steel articles from Pittsburg three and four cents per hundred pounds on carloads, and two and one-half cents per hundred on less than carloads. With this exception no reductions have been definitely offered. The reductions which the carriers suggest that they may possibly offer from Buffalo and Pittsburg appear to be reasonably satisfactory on the first three classes, while on other classes the possible reductions are but two or three cents per hundred pounds, and are small as compared with the reductions offered on Cincinnati traffic.

From New York, Philadelphia and Baltimore we understand the suggested reductions are simply reducing the present rates to the sum of the local rates to and from Norfolk, and even this concession is made contingent upon negotiations with their northern connections.

We are unable to understand why it is necessary to consult their connections in this case, which is specifically prohibited by the fourth section of the Act to Regulate Commerce, and the ruling of the Interstate Commerce Commission. To reduce through rates to the sum of the locals is not a concession. The Interstate Commerce Commission has repeatedly ruled that through rates should be less than the sum of the local rates to and from intermediate points.

The railroads, in their proposition of September 12th, cite striking illustrations of through rates being in excess of the sum of intermediate locals as follows:

From New England points—hardware, 7 cents.

From various points—molasses and glucose, 1½ to 5 cents.

From Pittsburg territory—glassware, 11 cents.

From New York and Philadelphia—crackers, canned goods and soap, from 3 to 5 cents.

Because of the above facts in regard to eastern rates, we contend that no definite proposition has been submitted which the State can accept or reject.

OUTBOUND RATES TO OHIO AND MISSISSIPPI RIVER CROSSINGS.

The class rates proposed by the railroads as maxima from any point in North Carolina, being approximately the same as the maximum rates from the Ohio River, would be reasonably satisfactory at this time on articles moving under class rates, but until such time as the railroads indicate from what points they propose to apply these maximum rates and what specific rates they propose to make from other points, intelligent comment is impossible. If the railroads submit a satisfactory scale of class rates, acceptance by the State should not preclude the State from taking appropriate action to secure equitable and nondiscriminatory rates to western points on products produced in North Carolina.

In conclusion, we do not believe that the proposition as a whole can be accepted by the State as a settlement of the North Carolina rate situation, as no definite and clear-cut offer has been made as to many rates and as outbound rates have not been considered in detail and for other reasons pointed out in the above. We do believe, however, that the proposition of the railroads as to Cincinnati, Louisville and points basing thereon and related thereto would be acceptable for a two years period, provided the acceptance would not tie the hands of the State as to other adjustments, and if the objectionable stipulations proposed by the carriers incident to its acceptance are eliminated.

In the above we have not attempted to go into the merits of each individual rate, but have considered the proposition from a Statewide viewpoint.

Yours very truly,

(Signed) J. T. RYAN.

(Signed) J. C. FORRESTER.

To the Honorable the House of Representatives of the

General Assembly of North Carolina.

In compliance with the resolution of the House, of date September 26th, I communicated with Mr. W. W. Finley, President of the Southern Railway Company, calling his attention to the report made by the Special Legislative Commission to the Governor, of date September 20th, which report was subsequently presented to the House of Representatives for its information.

The representatives of certain carriers joined Mr. Finley in his reply to my communication. There now seems to be no ground for difference or misunderstanding as to what the proposal of the carriers means. The reply to my letter meets each point I raised, and as I asked that any other point of difference between the carriers and the Special Commission which occurred to Mr. Finley should be indicated, and none was indicated, the carriers can not hereafter reasonably disagree with the construction placed on the proposal in the conclusion by the Special Commission.

Any idea of the State being restricted in its power and right to legislate is entirely negated by the position taken by this Special Commission in its report, which report was sent to Mr. Finley, and which he had before him when the letter of the carriers of September 28th was written to me.

The State, by accepting the proposal does nothing more than agree that it shall be the policy of the State not to disturb for a term of two years the freight charges of western traffic on which reductions are proposed to be made.

The only contingency suggested by the carriers which may interfere with putting into effect the reduced rates proposed is mentioned in the reply of the carriers.

As the consent of the Interstate Commerce Commission is necessary to permit a violation of the long and short haul principle, as the carriers assert, in their letter of September 28, 1913, that the putting of the lower rates into effect, as they propose, violates that principle, that unless the Interstate Commerce Commission allows it to do so the rates can not be lowered as proposed.

It seems clear that the State is left entirely free to take such course as it deems right on outgoing freight, except on furniture, on which rates are proposed to be reduced, and on incoming freight other than the western freight on which rates are reduced, and with respect to all intrastate matters, without any embarrassment, and it is made certain that there is no implied understanding and nothing is left to inference.

The communications between me and the carriers are attached hereto. The report of the Special Commission and this report, together with the attached papers, should be spread on the Journal of the House for preservation, as these, together with the message of the Governor, state fully what the situation is.

This September 29, 1913.

(Signed) E. J. JUSTICE,
Chairman of the Special Commission.

RALEIGH, N. C., September 27, 1913.

To Mr. W. W. Finley, President,
Southern Railway Company,
Washington, D. C.

DEAR SIR: The House of Representatives of the General Assembly of North Carolina adopted a resolution on September 26 which reads as follows:

"Resolved by the House of Representatives, That the Chairman of the Special Legislative Commission, which was appointed to investigate injustices in freight charges, he being a member of the House, be requested to communicate with some authoritative representative of the carriers referred to in the Governor's message, with the purpose of ascertaining for the information of the House whether the conclusion in the report of said Special Commission this day made to the House, with which conclusion the Governor's message is in accord, will be carried out by the carriers as indicated in said conclusion, and that he report to the House not later than Monday, the 29th day of September, 1913."

The portion of the conclusion referred to in the foregoing resolution material for your consideration under the terms of this resolution, reads as follows:

"Our conclusion, therefore, is that the conditions and ambiguities pointed out by us should be removed by the carriers, in writing, and that they should agree to put the proposed western rates into effect within sixty days; and when this is done the General Assembly could well afford to declare that it will be the policy of the State to allow these rates to remain as so fixed for a period of two years."

The other portion of the conclusion referred to is a statement of the State's position, as the Commission understood it, and was inserted to make its position clear.

The "conditions and ambiguities" referred to in the foregoing language quoted from the report of the Special Commission are set out fully in the report of the Commission, first, with reference to the submission to the Interstate Commerce Commission of the question of the reduction proposed; and second, the condition, with reference to so-called "retaliatory and punitive legislation," as it is expressed in your proposal to the North Carolina Corporation Commission.

The report of the Special Commission referred to was made to the Governor on September 20th, and since that time it is the understanding that these conditions have been eliminated.

The ambiguity referred to is mentioned on page six of the report, being comments of Messrs. Ryan and Forrester, which accompany the report made to the Governor by the Special Commission.

It is understood that it is the position of the carriers that the proposal of the railroads meet this criticism of Messrs. Ryan and Forrester, and that under the proposal the situation, with respect to the extent of reduction on western rates, is as contended by them should be the case, and include western freights from the territory mentioned, which bases on Virginia cities as well as other freights from the western territory based on other points.

It is the view of the Commission, of which I have the honor to be chairman, and I believe that it is the view of the General Assembly, that there should be no ground left for misunderstanding between the carriers and the representatives of the State, and it is with this purpose in view that it is desired to have your confirmation of our understanding as expressed herein. If there is any other point upon which you think there is doubt about the position of the representatives of the State and the carriers being the same, I would be glad for you to call it to my attention, and I assure you that I will appreciate your response to this communication in time for me to comply with the direction of the House of Representatives to report not later than the 29th of September. I accompany this with a printed copy of our report to the Governor, which was later made to the House, though I understand from Mr. Henry W. Miller that he has already transmitted this report to you.

Very respectfully yours,

(Signed) E. J. JUSTICE.

THE RAILROADS' REPLY.

Hon. E. J. Justice,

WASHINGTON, D. C., September 28, 1913.

Raleigh, N. C.

DEAR SIR:—Mr. Finley received only this morning your letter of the 27th instant, although he learned yesterday through Mr. Miller that you had mailed him such a letter.

Mr. Finley being, as you will understand, without authority to speak on behalf of all the North Carolina carriers, a conference with such executives of other companies as were available was at once sought, so that an answer, as authoritative as possible, might be sent you in time for you to receive it, as you request, by tomorrow, the 29th instant.

Referring to your inquiries, which are as follows:

1. Whether the proposed rates on western traffic are confined to the traffic from western points on which rates are made by combination on Ohio and Mississippi River crossings or includes also traffic from territory west of the Buffalo-Pittsburg territory as to which the rates now base on Virginia cities.

This point is dealt with on the first page of the carriers' proposal of September the 12th, as follows:

"RATES FROM THE WEST.

"This heading is intended to embrace points on and north of the Ohio River, and points west of the Buffalo-Pittsburg zone and points west of the Mississippi River, from which rates are made by combination on the Ohio and Mississippi River crossings."

The qualifying expression here used, namely, "from which rates are made by combination on Ohio and Mississippi River crossings," applies only to the following words in the paragraph referred to, namely, "points west of the Mississippi River," and are not intended to apply to the remainder of the clause, namely, "points on and north of the Ohio River, west of the Buffalo-Pittsburg zone." The proposal, therefore, means that proportional rates proposed to be established south of Virginia cities will apply on traffic from points west of Buffalo-Pittsburg zone whether basing on Ohio River crossings or basing on Virginia cities.

We note your reference to putting the proposed western rates into effect within sixty days. The situation in regard to that is this: The procedure required by the interstate commerce law to put the rates into effect and the provisions of the fourth section of that law will require, as a preliminary, a statement of the matter in general terms to the Interstate Commerce Commission for the purpose of obtaining its permission, necessary under the fourth section, to put the rates into effect so far as the provisions of the long and short haul clause are concerned. When that permission shall have been obtained it will be necessary to work up the changes in traffic, one of which now has 502 pages, and after the amended tariffs are printed to file them with the Interstate Commerce Commission. We should hope to be able to accomplish the filing of these tariffs with the Interstate Commerce Commission within sixty days after relief by that Commission from the

provisions of the long and short haul clause is obtained. Certainly it will be done in good faith and just as quickly as is physically practicable to accomplish the work. The Interstate Commerce Law requires that thirty days shall elapse after the rates are thus filed before they go into effect unless the Commission shall see fit to shorten this period.

2. Whether it is the understanding of the carriers that that portion of the agreement with the representatives of the State made in Raleigh on February 26th has been eliminated which requires that a ruling shall be obtained by the State from the Interstate Commerce Commission that the effect of any rates agreed upon shall not extend beyond the limits of North Carolina so as to affect reductions in other States.

It is true that that principle was agreed upon at Raleigh in the February agreement, it being expressly provided therein that an order was to be obtained from the Interstate Commerce Commission which would protect the carriers from reductions in their rates to other territory caused by any reductions which might be agreed upon to North Carolina points.

When the Governor, through Mr. Travis of the Corporation Commission, conveyed to us the suggestion that the Interstate Commerce Commission might hesitate to make such an order, and that an insuperable obstacle might thereby be created to making the proposed rates effective, the carriers accepted the Governor's suggestion and agreed to eliminate the clause referred to.

3. Whether it is the understanding of the carriers that the expressed proviso in their proposition of September 12th has been eliminated which provided that if the proposal of the carriers was accepted there should be no punitive or retaliatory legislation on the part of the State.

The facts in regard to this are that the proposal of the carriers, dated September 12th, as originally submitted, and which the Legislative Commission doubtless had before them when preparing their report to the Governor, did contain a proviso to that effect. The Governor, however, before making his recommendation to the Legislature, conveyed to the carriers, through Mr. Travis an objection to this language. Our understanding was that the Governor objected to even the appearance of contracting away the freedom of the State in respect to legislation, and the carriers, accepting the Governor's view, consented to the elimination of the clause relating to punitive and retaliatory legislation, and this was accordingly done. It is not the intention of the carriers to be technical in regard to this matter. They have proposed to make these reductions in order to meet, as far as practicable, the desire and will of the people of North Carolina, hoping thereby to secure their good will and to establish entirely harmonious relations with the State. In order to do this they have proposed to make great sacrifices in their earnings, sacrifices that they could not afford to make except for the purpose of securing the good will of the people and the harmonious relations which they so much desire. Having gone so far in a spirit of compromise to meet the wishes of the people, the carriers are relying for their protection not on any contract with the State, for there is none, but upon the sense of fairness and justice of the representatives of the people and upon the faith that, if the State should accept the proposal, such course

will thereafter be pursued by the State as would be in keeping with the spirit of the settlement and just, fair and equitable under the circumstances.

Yours very truly,

REPORT OF SPECIAL COMMITTEE OF THE HOUSE OF REPRESENTATIVES ON H. B. 124, INTRODUCED BY MR. LINVILLE BUMGARNER, OF WILKES COUNTY.

The Special Committee appointed by the House of Representatives to report on H. B. 124, on the conduct of Representative Bumgarner, of Wilkes County, in securing the passage of said bill through this House, beg to file the following report:

That this bill was introduced by Mr. Linville Bumgarner, Representative from Wilkes County, on September 27, 1913, that it was placed on the Calendar; that the bill passed the next legislative day after it was introduced; that said bill was then sent to the Senate without engrossing.

That Representative Bumgarner, the author of said bill, appeared before the committee and stated that he did not believe that he could have gotten the bill through this House if he had given in the title the real purpose of the bill, but that he did not think there was anything wrong in doing what he did, at the same time admitting that he had never before attempted to amend two acts in one bill. That he thought if he could get it through with one hundred and three Democrats watching him it would be a good joke that he had successfully played on the Democrats. That he told his friends before introducing the bill that if he attempted to do the very thing that he did do, the Democratic members of this General Assembly would burn him in effigy.

The committee, therefore, are unanimously of the opinion that Representative Linville Bumgarner, of Wilkes County, prepared the title to his bill as he did with the deliberate intent to deceive the members of the General Assembly into believing that it was a private bill, when in fact it was a bill to repeal a private act and amend an important public act; that by his acts and conduct in this matter he has wilfully violated the confidence heretofore placed in him by the members of the General Assembly. That this report be spread upon the Journal of the House of Representatives.

JOHN C. SIKES,
HENRY A. PAGE,
R. A. DOUGHTON,

H. R. 3, S. R. 1, a resolution appointing a committee to notify the Governor.

MESSAGE FROM THE GOVERNOR.

To the Honorable the General Assembly of North Carolina:

I transmit to you herewith the report of the Corporation Commission of negotiations for adjustment of interstate freight rates, made on August 5, 1913, with an amendment made on September 19, 1913.

If the proposals for reduction of transportation charges contained in this report be accepted, the reduced rates are to go into effect without delay, and the acceptance by the State of the proposals therein contained will be a settlement of all pending differences between the State of North Carolina and the railways in respect to rates on interstate traffic therein adjusted, for a period of at least two years from the time of such acceptance.

I refer this report with the proposals to the representatives of the people, that they may determine what shall be done.

The carriers make definite proposals in substance as follows:

1. From Northern and Eastern territory all rail rates on through freight shall in no case exceed combinations of local rates. This is not a concession but an agreement to comply with the law, which ought never to have been violated, but we would obtain this benefit without resort to the courts.

2. From the Buffalo-Pittsburg territory substantial reductions on all important iron and steel commodities.

3. From Western territory reductions to the zones of the State specifically set out in the report. This Western territory embraces all points east of the Buffalo-Pittsburg zone, north of the Ohio River, and west of the Mississippi River.

4. From all furniture points in the State to the far West, rates on furniture equal to the rates now in force from the Virginia cities, and to the territory east of the Rocky Mountains, a reduction of twelve dollars per carload on mixed furniture.

5. Commodity rates on inbound freight to the city of Asheville and related territory set out on pages 25 and 26 of the report of the Corporation Commission, and on pages 10 and 11 of the amendment.

In addition to the above unconditional proposals, the carriers agree to further reduce rates from Northern and Eastern territory, and from the Buffalo-Pittsburg zone, on condition that they secure the consent of their northern and eastern connections.

I have devoted to this question most earnest thought. I have had the assistance and coöperation of experts in freight rates, and have taken counsel with the Legislative Freight Rate Commission and with officials and members of the Just Freight Rate Association, with the Corporation Commission and with the Council of State. It is my duty under the Constitution to express to you my views and conclusions. In the discharge of this duty, I recommend that the proposals as above set out be accepted.

In the original proposition there were conditions that made acceptance impossible. These have been eliminated, and the proposition has been amended to the decided advantage of the State. As it now stands, I believe that it makes a reduction reasonable under the present rate system. I know that it makes a substantial reduction. In my opinion it is a fair compliance in good faith with the understanding between representatives of the State and representatives of the carriers in conference at Raleigh on February 26, 1913.

The acceptance of these proposals would save to our people a vast amount of money, and enable the cities and towns of North Carolina to compete on equal terms with the cities of other States.

The saving in freight rates would be a substantial gain, but the greater consideration is the opportunity for business that lower rates would offer. Our prosperity would increase, and our industries be encouraged to the extent of the reduction on the cost of transportation.

The proposed reductions are in my opinion as much or more than we could secure under the present system and construction of the law through the Interstate Commerce Commission, even by long and expensive litigation. Under this proposition we would secure the benefits of the reduction with little expense, and as soon as the rates could be put into effect.

Shall we accept these proposals and save to the State a vast sum of money, and vouchsafe to her industries increasing prosperity, without compromising the dignity of the State and without yielding our right to proceed for any further reductions in rates not provided for in the adjustment; or shall we reject them and make war upon the carriers to compel greater reductions? By the acceptance there are no limitations, expressed or implied, upon the State. Within her jurisdiction the State will exercise her sovereign power according to the dictates of her own conscience in the making and the administration of law. No one can barter away this right, if he would.

I want peace, but I prefer war to an ignominious peace. I really want peace, and peace on the terms proposed is an honorable peace.

I fully realize that we are not getting all to which we are entitled, but it is much. It is a move in the direction of complete justice.

If the issue with the railroads were within the jurisdiction of the State, justice would be decreed by statute, and enforced. But the power of the State can not directly control this matter. We contend under disadvantages; against a long established system recognized by Federal statute and authority.

The existing rate structure has been developed by the arbitrary will of the carriers; it has resulted in all manner of extortion and injustice; it must be revised. There is no competition between railroads, the people can expect no protection from competition; the law must fix and regulate rates. The rate for any point should be determined by the relative cost of the haul. This axiomatic principle can be established only in the Federal jurisdiction; not until it be established can we have complete relief from the injustice under which we have long suffered.

The present method of fixing rates by the arbitrary power of the railroads has existed from the beginning of railroad transportation. The people have submitted because they did not know. Like the protective tariff, it has grown insidiously until, oppressed by accumulating injustice, the people have awakened for action. We can not hope to upset or destroy the whole evil at one stroke. We must persevere on the line laid down by President Wilson in his discussion of the tariff. We have begun and will not stop. We have put our hands to the plough and will not look back.

Respectfully,

LOCKE CRAIG,
Governor.

From the Committee on Constitutional Amendments:

By Senator Ivie, S. B. 30, a bill to amend the Constitution of North Carolina, without prejudice.

Senators Daniel and Grant, for the Committee on Judiciary No. 1, make report upon Senate Bill 223, House Bill 124, a "bill relative to Wilkes County

to repeal chapter 593 of Public Local Laws of 1913 and amend Public Laws of 1911," and the same is ordered spread upon the Senate Journal as follows:

The committee unanimously reports the above entitled bill unfavorably and recommends that it do not pass, and submits the following:

This bill was introduced by Mr. Bumgarner, the member of the House of Representatives from Wilkes County, and is entitled "A bill to be entitled an act relative to Wilkes County, to repeal chapter 593 of Public Local Laws of 1913 and amend Public Laws of 1911."

The title is misleading and calculated to deceive, and the confidence which the General Assembly has heretofore placed in its members in all matters concerning local legislation has been grossly violated.

This bill was introduced and passed its first reading in the House September 27th, and on September 29th it passed the second and third readings, and was ordered sent to the Senate without engrossment. October 1st it was read in the Senate by its title and referred to Judiciary Committee No. 1.

An examination of the acts it is intended to repeal and to amend shows that the first section of the proposed bill repeals chapter 593, Public Local Laws of 1913, which is an act relative to the board of county commissioners of Wilkes County, authorizing the said board of commissioners to allow the officers of that county a certain sum for clerk hire.

A bill of such character is passed by the General Assembly without scrutiny or question upon the bare statement of the representative of the county that it is local and concerns only his county.

The second section of the proposed bill is as follows:

"Section 2. That the word 'Wilkes' in line 18, chapter 97, of the Public Laws of 1911, be stricken out, and that the word 'Wilkes' be inserted at the end of line 21 of said chapter."

Chapter 97, Public Laws of 1911, is the act dividing North Carolina into ten Congressional districts. The effect of this bill, if it had passed, would be to take the county of Wilkes out of the Seventh Congressional district and to put it in the Eighth Congressional district.

This committee desires to strongly condemn such an attempt on the part of the author of the bill to secure this character of general legislation by abusing and taking advantage of the courtesy which is invariably extended to members of the General Assembly as to local legislation, and to express its censure of this particular bill, its author, and his methods.

It is recommended that this report be spread upon the Journal, and the committee directs that it be made to the Senate for the committee by Senators Daniel and Grant.

(Signed) W. E. DANIEL,
 A. T. GRANT, JR.,
 For the Committee.

A message is received from the House of Representatives asking the return of S. B. 223, H. B. 124, a bill relative to Wilkes County, to repeal chapter 593 of the Public Local Laws of 1913, etc., and amend Public Laws of 1911.

Upon motion of Senator Payne, the bill is ordered returned to the House of Representatives.

CONFERENCE REPORT.

A message is received from the House of Representatives, containing S. B. 601, H. B. 43, a bill to amend the Constitution of the State of North Carolina, with the report of the conference committee relating thereto, as follows:

The conference committee of the Senate and House of Representatives, having under consideration the differences between the two houses on H. B. 43, S. B. 601, being a bill to be entitled an act to amend the Constitution of the State of North Carolina, beg leave to submit the following recommendations:

We recommend that the House recede from Paragraph II of the original bill, and concur in Paragraph II of the Senate substitute, so that Paragraph II will read as follows:

II. By striking out section 28 of Article II and substituting in lieu thereof the following:

"SEC. 28. The members of the General Assembly for the term for which they have been elected shall receive as compensation for their services the

sum of six dollars per day for each day of their session, for a period not exceeding sixty days; and should they remain longer in session they shall serve without compensation. They shall also be entitled to receive five cents per mile both while coming to the seat of government and while returning home, the said distance to be computed by the nearest line or route of public travel. The compensation of the presiding officers of the two houses shall be eight dollars per day and mileage. Should an extra session of the General Assembly be called, the members and presiding officers shall receive a like rate of compensation for a period not exceeding twenty days."

We recommend that the House recede from the following language in Paragraph III:

"Unless the said highways shall extend into two or more counties," in lines eight and nine of said paragraph; and "unless said ferries or bridges shall connect or affect two or more counties," in lines ten and eleven of said paragraph; and further recommend that the following language in line twelve of said paragraph of the original bill, "relating to game or hunting," be adopted.

That the following language be inserted in lieu of lines sixteen and seventeen of the said paragraph of the original bill, and of lines seventeen and eighteen of the said paragraph of the Senate substitute:

"Erecting new townships or changing township lines, or establishing or changing the lines of school districts."

That the word "its," in line twenty-eight of the said paragraph of the bill, be stricken out, and that the following language of lines twenty-eight and twenty-nine of the said paragraph of the Senate substitute, "enacted by it," be substituted in lieu thereof.

That the Senate recede from the words, "relating to the establishment of recorders' courts," in line five of the said paragraph of the Senate substitute, and that the words, "relating to the establishment of courts inferior to the Superior Court," be adopted in lieu thereof.

That the language, "relating to dog tax" and "relating to salaries of county officers," in lines six and seven of the said paragraph of the Senate substitute be rejected.

That the language, "relating to the appointment of justices of the peace," in line eight of the said paragraph of the Senate substitute be adopted, so that Paragraph III shall read as follows:

III. By adding at the end of Article II a new section, to wit:

"SEC. 29. The General Assembly shall not pass any local, private or special act or resolution:

"Relating to the establishment of courts inferior to the Superior Court.

"Relating to the appointment of justices of the peace.

"Relating to health, sanitation and abatement of nuisances.

"Changing the names of cities, towns and townships.

"Authorizing the laying out, opening, altering, maintaining, or discontinuing highways, streets or alleys.

"Relating to ferries or bridges.

"Relating to game or hunting.

"Relating to non-navigable streams.

"Relating to cemeteries.

"Relating to the pay of jurors.

"Erecting new townships, or changing township lines, or establishing or changing lines of school districts.

"Remitting fines, penalties and forfeitures, or refunding moneys legally paid into the public treasury.

"Regulating labor, trade, mining, or manufacturing.

"Extending the time for the assessment or collection of taxes or otherwise relieving any collector of taxes from the due performance of his official duties or his sureties from liability.

"Giving effect to informal wills and deeds.

"Nor shall the General Assembly enact any such local, private or special act by the partial repeal of a general law; but the General Assembly may at any time repeal local, private or special laws enacted by it.

"Any local, private or special act or resolution passed in violation of the provisions of this section shall be void.

"The General Assembly shall have power to pass general laws regulating the matters set out in this section."

We recommend that the Senate recede from Paragraph V of the Senate substitute, relating to increasing the jurisdiction of justices of the peace.

We recommend that Paragraph VI of the bill, being the following, "VI. By striking out sections twenty, twenty-six and thirty-three of Article IV," be adopted.

We recommend that the Senate recede from the language, "one dollar," in line eight (8) of section 5 of Article V, Revenue and Taxation, Paragraph VII of the Senate substitute, and that the language, "seventy-five cents (\$.75)," in lines eight (8) and nine (9) of section 5 of Article V, Revenue and Taxation, Paragraph VII of the original bill, be adopted.

We further recommend that the language, "by an act of the General Assembly or," in line fifteen (15) of section 5 of Article V, Revenue and Taxation, Paragraph VII of the original bill, be adopted, so that the section will read as follows:

"SEC. 5. The *ad valorem* taxes on real estate and personal property shall not exceed for all State and county purposes sixty-six and two-thirds cents ($66\frac{2}{3}$) per annum on the one hundred dollars (\$100) assessed valuation of such property, unless a greater rate be approved by a majority of those who shall vote at an election held thereon. The *ad valorem* taxes collected on real estate and personal property by cities and towns shall not exceed, for all purposes, seventy-five cents (\$.75) per annum on the one hundred dollars (\$100) assessed valuation, unless a greater rate be approved by a majority of those who shall vote at an election held thereon: *Provided*, that these limitations on the rate of taxation shall not apply to taxes necessary to pay debts contracted prior to the adoption of this amendment, nor to taxes heretofore authorized by an act of the General Assembly or by vote of the people."

We further recommend that the House recede from section 6, Article V, Revenue and Taxation, Paragraph VII of the original bill, and that the Senate recede from section 6, Article V, Revenue and Taxation, Paragraph VII of the Senate substitute, and that the following be adopted as section 6, Article V, Revenue and Taxation, of Paragraph VII, namely:

"SEC. 6. The General Assembly shall provide for a capitation tax on every male inhabitant of the State over twenty-one and under fifty years of age, but not exceeding two dollars (\$2) per annum for all State and county pur-

poses, and municipalities may be authorized by the General Assembly to levy a capitation tax, but not exceeding the amount hereinbefore authorized for State and county purposes. The proceeds collected from State and county capitation taxes shall be applied to the purposes of education and the support of the poor in such proportion as the General Assembly may direct. The General Assembly may also provide, by general law, for the exemption from payment of said capitation tax in special cases on account of poverty and infirmity."

We recommend that the House recede from section 7 of Article V, Revenue and Taxation, Paragraph VII of the original bill, and that section 5 of Article V, Revenue and Taxation, Paragraph VII of the Senate substitute, be adopted.

We recommend that the House recede from Paragraph IX of the original bill, and that Paragraph IX of the Senate substitute be adopted.

We further recommend that the language of Paragraph IX of the original bill, which is not contained in Paragraph IX of the Senate substitute, be incorporated into a new paragraph and new amendment to be submitted to the people, which shall read as follows:

"X. By striking out section 4 of Article VIII, and inserting in lieu thereof the following:

"Sec. 4. It shall be the duty of the Legislature to provide by general laws for the organization of cities, towns, and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts, and loaning their credit, so as to prevent abuses in assessment and in contracting debts by such municipal corporations."

We further recommend that Paragraph VIII be combined with Paragraph I, so that Paragraph I shall read as follows:

"I. By striking out of Article I, section 6, the words 'insurrection or rebellion against the United States,' and inserting in lieu thereof the following words, 'the war between the States,' and by striking out the word 'rebellion,' in section 13 of Article VII, and inserting in lieu thereof the words, 'war between the States.'"

We further recommend that the succeeding paragraphs be renumbered so as to be consecutive after the elimination of Paragraph VIII heretofore combined with Paragraph I.

We further recommend that all of the provisions of the original bill and Senate substitute on which there was no difference between the two houses, together with the differences between the two houses which have been adjusted by the conference committee, be incorporated into a substitute bill, which is submitted with this report, and which substitute bill the conference committee recommends for your adoption.

Respectfully submitted,

A. T. GRANT, JR.,
